To me

Dear Senthil Kumar T,

Your request for Institutional registration facility in NDL India is approved. Please register all the users (students, research scholars, faculty members and staff) of Guru Nanak College (Autonomous), who are not yet registered in NDL India, by clicking the "Add User" button of the NDL India portal available to you after you login to NDL India (<http://ndli.ikgpc.ac.in>).

There are two options: Single User Registration and Bulk User Registration. Single User Registration is self-explanatory. For Bulk User Registration please prepare CSV file, strictly as per the following format, and then upload the file:

- e-mail id (of user)*
- First Name (of user)*
- Last Name (of user)

Note that the e-mail id and First Name are mandatory for each person but Last Name is optional. Also there should not be more than 1000 (One Thousand only) users in a CSV file. The registration process gets completed once the registration mails are sent to all the users listed in the file. It may take some time to complete this mail sending process and you may observe the status in the tab "Status".

In case you need to register more than 1000 users, please do this by making multiple files, each file not containing more than 1000 users, and uploading each file separately, and one by one. The next file should be uploaded only when the registration process for the previous file is completed, which may be confirmed from the "Status" tab.

Since new students, faculty, staff join every 6 months, please collect details of new users enrolled in Guru Nanak College (Autonomous) every 6 month period and get them registered in NDL India.

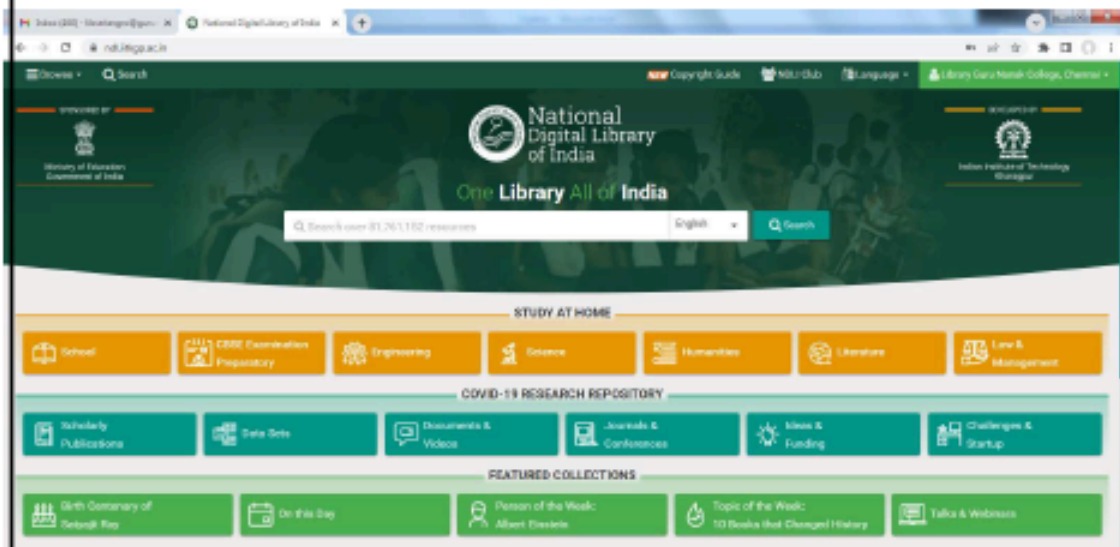

If you face any problem or need any clarification, please get in touch with us at ndi-support@ikgpc.ac.in.

We solicit your cooperation in getting all users of Guru Nanak College (Autonomous) registered in NDL India regularly.

Let's all enjoy NDL India!

GURU NANAK COLLEGE SCHOOL OF MANAGEMENT Department of MBA – Experiential Learning

1. Experiential Learning

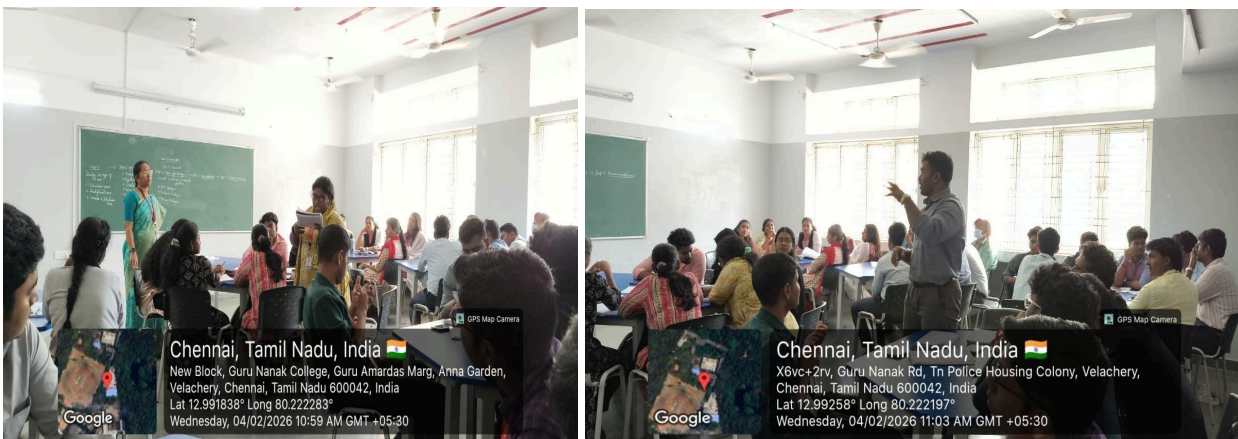

- The Department of MBA focusses more on Experiential learning since it is a process where one learns by going through an experience first-hand. The students of MBA learn through multiple forms, either inside or outside of a classroom. Experiential learning like:
 - 1.1 **Internship** provides students an opportunity to practice what they have studied in the classroom at the workplace.
 - 1.2. **Projects** expose the students to real time work experience before they complete the course.
 - 1.3. **Preparation of Business Plan** helps students to analyse various feasibilities for starting a business
 - 1.4. **Part -time job** develops critical thinking, problem solving and decision making skills which are considered to be very vital for MBA graduates. It goes beyond the theories taught in the classroom to offer first-hand experience, which further aids in the retention of these new concepts. It also results in the increased engagement levels of students.
 - 1.5. **Industrial Visits** provides an exposure to students about practical working environment. They also provide students a good opportunity to gain full awareness about industrial practices.

Case study Analysis

Case study analysis is used in the MBA classroom to help students apply theoretical concepts to real business situations. Faculty members share subject-related case studies and also discuss current articles published in newspapers to connect classroom learning with real-world developments. Students actively participate in discussions and are required to submit a brief case analysis based on the issues discussed. This activity helps improve students' analytical thinking, problem-solving skills, and awareness of current business trends.

1.6. **Store Visits** helps students get a live experience on the working of retail industry.

1.2 Store Visit

2. PARTICIPATIVE LEARNING

Engaging management students in Participative learning allows them to get involved in class activities to make sure that everyone contributes to the learning process. This process makes sure that all students are included in the learning process. Activities such as

Role play provide students with the opportunity to take part in activities which mirror career-related scenarios

2.1 Role Play

2.1 Quizzes are given to track, report, and evaluate learning progress and outcomes of the concepts of learning.,

Outreach Activities

MBA students actively participated in *Umanage*, an initiative conducted by the Government of Tamil Nadu. The program provided students with exposure to real-world problem-solving, innovation, and emerging technologies aligned with industry and societal needs. Through this participation, students enhanced their practical knowledge, creativity, teamwork, and awareness of government-led digital and development initiatives. The activity helped bridge the gap between academic learning and real-time applications, thereby improving students' employability skills and social responsibility.

Interviewing Experts from Industry

Every year, MBA students are given the opportunity to meet and interview experts from the industry as part of their extracurricular activities. This interaction helps them understand the pulse of the industry and how they need to develop their skills to match industry expectations.

Students classroom presentation

Classroom presentations play a very important role in developing students' communication and presentation skills, which are basic skills every student must possess. In all subjects, students are required to give presentations. This helps them enhance their public speaking ability and effectively express their views to others.

Experiential Learning

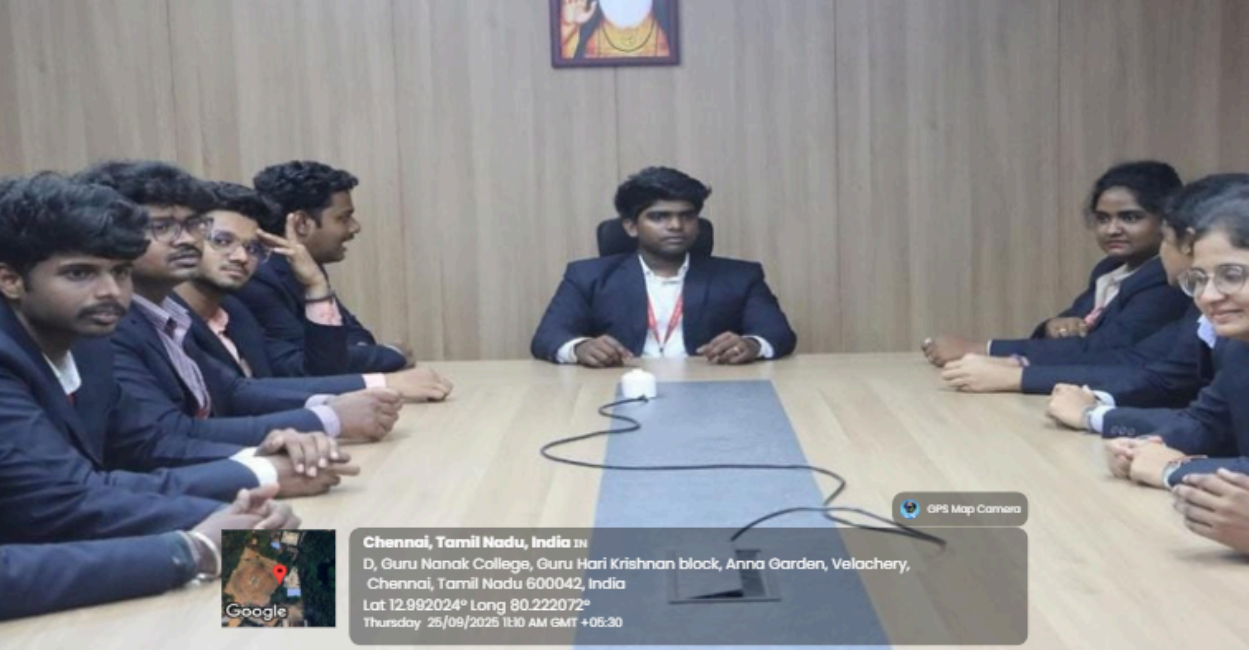

Experiential learning is key to inculcating the skills required to become an administrator or manager. This includes developing negotiation skills through role plays, participating in group discussions to learn teamwork, and conducting mock annual meetings where students understand the different roles and responsibilities of managers within an organization.

Mock Annual Meetings

Industrial visit

Industrial visits give real-time exposure to students by allowing them to explore manufacturing units and interact with employees across different departments of the organization. Through this interaction, students gain an understanding of the real challenges faced at the operational level of management as well as the decision-making challenges encountered by top-level management.

Participation In Global Linkage Summit - CII Mystic South

GLOBAL LINKAGE SUMMIT 2025 - CII MYSTIC SOUTH (TAJ COROMANDAL)

Cultural Learning

Students visited Vivekananda Illam to gain insights into the life, teachings, and philosophy of Swami Vivekananda. The visit helped inculcate values such as discipline, patriotism, leadership, and social responsibility among students. The experience enhanced students' cultural awareness and ethical understanding beyond the classroom.

Best Practices - MCA

- ❖ Internships and Projects are provided to the students with the IT/ITES industry to gain real-time exposure, based on their performance they are absorbed by the company.
- ❖ In-house projects are encouraged during their course of study.
- ❖ Workshops and Seminars by Industry experts on the latest technologies.
- ❖ Exclusive Skill courses on AWS Cloud, Cyber Security, Data Science, Python Essentials, and MongoDB are offered in association with NASSCOM, CISCO, MongoDB, Oracle Academy, and AWS Academy.
- ❖ Students are encouraged to do Global Certifications for better placements.
