REPORT

The Guru Nanak Centre for Skill development organized a certificate course on Disaster Management for Batch I on 30.04.2021 & from 07.06.2021 to 11.06.2021 and for Batch II from 12.06.2021 to 17.06.2021 for the students of the departments of Defense and Strategic studies and Economics through online. The resource person was Dr. Madha Suresh, Director-Research (GSGRI), M.Sc., M.Phil., M.Ed., Ph.D., PDF., Professor and Head (former) DIRECTOR-IQAC (former), Centre for Natural Hazard and Disaster Studies, (School of Earth and Atmospheric Sciences), University of Madras. In life, disaster never knocks before it emerges, but the effects seem to be rather severe and intense in the society. Thus, it is critical to raise an awareness about disaster management and techniques for dealing with disasters among students at an early stage of their path toward being a responsible citizen. The Resource Person Dr. Madha Suresh, taught the students on “Climate Change (CC) related to human and environmental security issues. He also explained the mitigation strategies against the disasters due to a number of factors like: - natural and human induced, including adverse geo-climatic conditions, topographic features, environmental degradation, population growth, urbanization, industrialization, flawed development practices. He also pointed out that India is one among the countries affected by floods every year resulting in loss of lives and property. He also emphasized that natural disasters are transnational, multifaceted, and long-lasting, and that no one entity can handle catastrophes alone. Additionally, he asserts that natural catastrophes are difficult to forecast, avoid, and manage. Additionally, they have detrimental social, economic, and health effects. Natural catastrophes have a cascading effect that is difficult to resolve. Additionally, she said that two types of refugees have grown in recent years, notably climate change refugees and catastrophe refugees. Certificate of Participation was issued to all the students who attended the Final Examination and submitted the Feedback form.

REPORT

Guru Nanak Centre for Skill Development conducted Value Added Course, on Fire Security and FirstAid for the students. This Course was coordinated by Department of Defence and strategic studies of Guru Nanak College, Chennai from 12th July 2021 to 18th July 2021 for the UG students of the department of Defence and Strategic Studies through online. “Fire Security and First Aid” is a certificate course initiated to identify and describe the various types and uses for fire protection systems and also to provide knowledge about the basic elements of public water supply system as it is related to fire protection. An official announcement about the course was given to the students and the classes began from 12th July 2021 and went on for two batches till 18th July 2021. The course content was divided into five units and the course was planned for 30 hours. Eminent resource person Mr. V. Thirunavukarasu was handling the classes for the UG students of Defence and Strategic Studies stream. The classes were conducted in the forenoon and afternoon sessions. The course objectives were to help the students gain the knowledge to carry out inspection of different fire alarm systems, recognize the basic components of the systems, and know the appropriate application of fire protection systems. The course also aimed at equipping the students with the knowledge of the different types of non-water- based fire suppression systems that are commonly utilized to appropriate situations. All 138 students were benefitted by the course and they were all given certificates to acknowledge their skill development under the banner of Guru Nanak Centre for Skill Development.

REPORT

Guru Nanak Centre for Skill Development conducted Value Added Course, on Python for the students. This Course was coordinated by Department of MCA of Guru Nanak College, Chennai from 29th July 2021 to 4th August 2021 for the I- & II-year UG students of the department of Mathematics through online. "Python" is a certificate course initiated to provide knowledge about universal concept of computer programming and to present Python programming language syntax, semantics and the runtime environment. An official announcement about the course was given to the students and the classes began from 29th July 2021 and went on till 4th August 2021. The Resource person Ms. S. Nirmala Devi described the importance of Python Programming and its application in Big data Analysis. She also explained how companies use big data in their systems to improve operations, provide better customer service and how to handle data and analyze data using python and utilize in the real-world scenarios. She briefed about the importance of this certificate program and how it is going to be the future educational trend. The certificate course was conducted in the evening from 1.00 Pm to 06.00 PM to give the students flexibility in their education and work schedules. There were 116 participants from 2019 and 2020 Batch of B.Sc Mathematics and certificate course was planned for 30 hours. The class was made interactive by conducting online quizzes. Students were given worksheet which were to be completed on the same session. Hands on training was given in Python Installation, Importing Libraries, problem solving, designing algorithm and coding. Students were also given training in Data Visualization using Python. This will enhance their skill in Data handling. The certificate was issued based on the comprehensive evaluation that was made based on online quiz, worksheet completion, problem solving and coding capabilities, data visualization skill. Students' performance and attendance were continuously monitored. Students shared their experiences on the last day.

REPORT

Guru Nanak Centre for Skill Development conducted Value Added Course, on Entrepreneur skills in Chemistry for the students. This Course was coordinated by Department of Chemistry of Guru Nanak College, Chennai from 5th July 2021 to 10th July 2021 through online for the first and second year students of the Department of Chemistry. “Entrepreneur skills in Chemistry” is a certificate course initiated to develop Entrepreneur skills and to give hands on training to the preparation of the products for the start of small -scale industries. An official announcement about the course was given to the students and the classes began from 5th July and went on till 10th July 2021. The course content was divided into five units and the course was planned for 30 hours. The first day of the course was introductory session taken by, Dr. R.M. Ezhilarasi , Head, Department of Chemistry and Ms. T.Saroja. On 6th July Dr.R.Chitra highlighted on “Adulteration and Detection of Food Adulterants. Dr. N. Malarvizhi presented the topic “The Role of polymers in Everyday Life” on the third day of the course. This topic highlighted the importance of polymers in everyday life, polymer degradation, recycling of polymers and International Resin Identification Coding system used in plastic products. On 8th July Dr.B.Rajeswari, emphasized the Chemistry entrepreneurship, the process of converting innovations in Chemistry into marketable products for commercial gain. This session mainly focused on the preparation of hand sanitizer, detergent powder, phenyl, dish wash powder and dish wash liquid. Dr. A. Karthikeyani handled the fifth day of the course about the jam and squash preparation under the topic “Chemistry in Kitchen”. The practical sessions were also conducted from 07.09.2021 to 21.09.2021. After assessment, all the students have been given certificates.

REPORT

Department of Plant Biology and Plant Biotechnology Offered a certificate programme in Forensic Science from 02.07.2021 to 14.07.2021 (10.00 AM to 12.00 PM) through online. Dr. E. Gayathri and Dr. A.C. Tangavelou were the course coordinators. Dr. M. Gopi gave a brief presentation of the journey behind the establishment of this Certificate programme. Dr.A. C. Tangavelou also described the importance of this forensic Science course and related fields and how they are interconnected from a long time. He briefed about the importance of this program and how, these certificate programs going to be the future educational trend. The ceremony was further continued by the lecture on credits earned in this certificate program by Dr. E. Gayathri. The session I had an Introduction to Forensic Science and Crime scene-based practice. The certificate course is scheduled in the noon from 10.00 Am to 12.00PM to give the students flexibility in their education and work schedules. This certificate programme is aimed to provide interest in forensic science and a basic understanding of crime scene related forensic science practice, while they are studying other subjects at the graduate level. Practical sessions were conducted from 07-09-2021 to 14-09-2021. We had 37 participants for 2019 batch and certificate course was planned to have 30 hours with an exam followed by teaching. After completing the Course, the students will receive certificates.

A Brief report on Training ON FINGERPRINTING Lift from crime scene Held during 11 July, 2021

Department of Plant Biology and Plant Biotechnology organized one day training program online in Fingerprinting. The guest of honor is Mr. Lakshmanan, Retired DSP, Fingerprinting-The Forensic Sciences Department of the State of Tamil Nadu (India) this training program was aimed to provide an intense training on Fingerprinting analysis from the crime scene. The online workshop is designed to introduce crime scene and law enforcement personnel on how to properly fingerprint crime scenes and effectively collect evidence. The first portion of this workshop (first 30 minutes) Mr. Lakshmanan Retired DSP, Department of Forensic Science, Mylapore, Tamilnadu was the guest of honor introduce the history, physiology, analysis and evaluation process of those lifted fingerprints. The second portion of this online workshop (last 20 minutes) introduced attendees how to analyze and evaluate fingerprint lifts. Other objectives include instructing students on how to lift fingerprints from different surface types, while utilizing the most effective techniques. Several fingerprinting techniques were discussed, and examined. Mr. Lakshmanan also explained how fingerprints are evaluated and analyzed, and how that relates to the outcome of a criminal investigation. He also analyzed and evaluates their own fingerprint lifts in the last 30 minutes. On 14th July 2021, the students presented their assignment in the form of PPT. Students shared their thoughts and views on the different field in Forensic science. Student's performance and attendance were continuously monitored. Practical Sessions were also conducted.

CERTIFICATE COURSES – 2020-21 ORGANIC FARMING

COURSE CODE	2020_GNC_SDC_008
DATE	02.07.2021 to 14.07.2021
DURATION OF THE COURSE	30 Hours
OBJECTIVES OF THE COURSE	- To impart a detailed knowledge on organic farming and vermiculture. - To highlight the benefits of eco-friendly agriculture by way of organic farming utilizing the by-products of vermiculture

COURSE CONTENT/SYLLABUS

Unit I

Organic farming – Principles and Policies – Certification – Participatory grading system (PGS) – Storage – Packing – Transportation – Marketing.

Unit II

Applications in Organic gardening – Seed treatment – Foliar sprays – Preparation and application of Vermiwash, Panchagavya, Gunapaselam, Farmers effective microorganisms, Egg lime formulation – Pest control – Ecological pest management – Pest repellents – NCBT 01 – Traps – Crop health and Soil health.

Unit III

History of Indian Earthworm culture - Need for Vermiculture - Earthworm types - Biology of *Lampito mauritii* and *Eudrilus eugeniae* - Trophic classification of Earthworm: Epigeic, Anecic & Endogenic; Clitellates & Non-Clitellates - Morphology, Anatomy and Physiology of Earthworms – Life cycle of Earthworm - Role of Earthworms in composting.

Unit IV

Nutrition garden – Ring garden – Double digging. Sericulture, Vermibeds, Biodung composting, Types

of Vermicomposting - Worm casts - General problems in production of vermicompost - Physical, Chemical and Biological properties of Vermicompost - Effects of vermicompost on soil properties - Vermiwash unit.

Unit V

Small Scale or Indoor vermicomposting - Large scale or outdoor vermicomposting. Vermicomposting - Quality & Economics - Role of Earthworm in sustainable Agriculture - Prospects of vermiculture as a self-employment venture.

REPORT

The Skill based Certificate course on Organic Farming was first addressed by Dr. M. Gopi Assistant Professor and Head of the Department who instructed about the journey pros and cons of Certificate course. Dr. Poonam Sethi also highlighted the significance and entrepreneurship of this Organic Farming course and its related fields like horticulture and agronomy. She also mentioned that the global scenario and contribution of India in the areas like soil health and food (Crop) related issues. The preparation or formulations such as Panchakavya, Jeeva-amrit, Beeja-amrit, Egg Lime extract, Neem Kernel Extract was demonstrated online with guidance to prepare oneself at each one's own household and later to market it at a competitive market price. Emphasis was laid on Documentation for Organic Certification and the step wise procedure was discussed to attain an Organic Farm Certification by the Government of India. The inauguration was further continued by the lecture on credits earned in this certificate program by Dr. S. Nirmalraj and he also emphasized the Lab to Land Concept. He threw light on the Earthworm types - *Lampito mauritii* and *Eudrilus eugeniae* and the biology and Life cycle of Earthworms. The First session had an Introduction to organic farming principles and policies. The certificate course was scheduled in the Morning from 09.30 am to 12.30 pm through online. This certificate programme is aimed to provide interest in organic farming and a basic understanding of agricultural practice, while they are studying other subjects at the graduate level. Totally 49 participants from 2020-2023 batch and the duration of this certificate course was planned to have 30 hours with a test followed by lectures. Student's performance and attendance were continuously monitored. After completing the Course, the students would receive a signed certificate of completion from the Course Coordinators.

Report on Training on VERMICOMPOSTING TECHNIQUE held on 11th July, 2021

Department of Plant Biology and Plant Biotechnology organized one day training program (online) on Vermicomposting Techniques. The guest of honour was Mr. Narasimman, organic farmer and marketer, Thusi Village, Kanchipuram District. This training program was aimed to provide an intense training on vermicomposting technique from the agricultural lands. The online workshop is designed to introduce organic farming and vermicomposting technique. On 14th July 2021, the students presented their assignment in the form of MP4 video format. Students shared their thoughts and views on the different fields in organic farming. Students were segregated into SEVEN groups based on their Roll Numbers and they enhanced not only their entrepreneurial skills but also their technical skills. The students were graded on their performance in the test and the assignment task given. Hourly based attendance too had added credits. All the students excelled in the test ONLINE mode with MCQ questions. Most of them scored above 75% and cleared with distinction.

PESTICIDE FORMULATION TECHNOLOGY AND ITS APPLICATIONS

COURSE CODE	2020_GNC_SDC_009
DATE	07.07.2021 to 15.07.2021
DURATION OF THE COURSE	30 Hours
OBJECTIVES OF THE COURSE	• Promotion of efficient application technologies suiting the existing requirements of the newer formulations. • Information dissemination for safe manufacturing practices, quality assurances, raw material specifications and sources. • Analytical and consultancy services. • Fostering the improvement in the qualifications and usefulness of scientists working in the field of agrochemical. • Continuing education in research through specialized training for pesticide personnel working in agrochemical R&D.

COURSE CONTENT/SYLLABUS

Unit 1:

Introduction to pesticides-need for pesticides-Definitions of agriculture, horticulture, floriculture-Green revolution- domestic and international demand for pesticides-area under cultivation-crop loss due to pests and diseases-involvement of FAO and FDA-terminologies and abbreviations used in pesticides industry.

Unit 2:

TYPES AND CLASSIFICATION AND METHOD OF FORMULATION:

Chemical pesticides-bio pesticides- Botanical pesticides- organic pesticides-rodenticides-fungicides-bactericides-viricides-weedicides-emulcifiable concentrate -mode of action of pesticides-contact pesticides-systemic pesticides wet table powder-liquid pesticides-solid pesticides-aerosols-formulation methods of liquid and solid pesticides.

Unit 3

BIOPESTICIDES AND APPLICATIONS

Bio pesticides- list-application- organic farming-production of microbial-botanical pesticides-azadirachtin-international and domestic usage volumes.

Unit 4

STATUTORY AND LICENSING REQUIREMENTS

Statutory bodies-Central Insecticide Board-FDA-FAO-toxicology -MSDS-chemistry- field trials-dosages-residue - harvesting interval-environmental impacts.

Unit 5

APPLICATION TECHNIQUES

Conventional methods-mechanical methods-open space mass applications-green house applications-applications through drip systems-applications in hydroponics, vertical gardens. Application of artificial intelligence and machine learning's-computer aided applications-PLC based applications-automation hardware's.

Demonstration:

Demonstrating the formulation of emulsifiable concentrates.Demonstrating the formulation of granules.

COURSE OUTCOME

Student will understand the development and production of state-of-the-art user and environment friendly new generation pesticide formulation technology.

REPORT

Department of Advanced Zoology and Biotechnology Offered a certificate program in Pesticide formulation Technology and its Applications from 07.07.2021 to 15.07.2021 (9.30 am to 11.30 pm). Under the guidance of **Dr. J. Jayanthi** , HOD , Department of Advanced Zoology and Biotechnology this certificate programme was initiated to the student to promote their entrepreneurship skill to manufacture a product that has optimum bio- logical efficiency, it's convenient to use, and to minimize environmental impacts. Dr. S.Bhuvaneswari and Dr. S.Jayaraj were the course Coordinators. Introduction to pesticides and the need for pesticides was explained by Dr.S. Jayaraj and briefed about the Green revolution, domestic and international demand for pesticides. The certificate course is scheduled in the noon from 9.30 Am to 12.30 pm to give the students flexibility in their education and work schedules .This certificate programme is aimed to provide interest in Formulation Technology

Pesticide chemicals in their “raw” or unformulated state is not usually suitable for pest control. These concentrated chemicals and active ingredients may not mix well with water, may be chemically unstable, and may be difficult to handle and transport. For these reasons, manufacturers add inert substances, such as clays and solvents, to improve application effectiveness, safety, handling, and storage. We had 44 participants for 2019 batch and 45 participants for 2020 batch. Certificate course was planned to have 30 hours with an exam followed by teaching. After completing the Course; the students will receive the certificates. Student's performance and attendance were continuously monitored.

A Brief report on Training in Pesticide formulation technology on 14.7.21

Department of Advanced Zoology and Biotechnology organized one day training online program in Pesticide formulation technology. The guest of honor was Dr.S.Prem Mathi Maran., , Founder Director and Principal Scientist, Clean Green Bio Research Foundation Dr.S.Prem Mathi Maran demonstrated the types of Pesticide Formulations. In liquid formulation technology he demonstrated the formulation of Emulsifiable concentrate, formulation of Micro Emulsions, Nano Emulsion, and Formulation of Liquid flow able. In solid formulation technology he demonstrated the formulation of Dusts, Granules, Pellets, Soluble Powders and wet table powders. Students had an interactive session with Dr.S. Prem Mathi Maran about Pesticide formulation technology.

CERTIFICATE COURSES – 2020-21 PERSONAL HYGIENE PRODUCT DEVELOPMENT

COURSE CODE	2020_GNC_SDC_010
DATE	22.03-2021 to 30.03.2021 10.06.2021 to 15.06.2021
DURATION OF THE COURSE	30 Hours
OBJECTIVES OF THE COURSE	• Students will understand and know the importance of hygiene and sanitation. • Identify the relationship between microorganisms and sanitation. • Analyze the importance of bioactive substances. • Know the properties and formulation of sanitizers. •

COURSE CONTENT/SYLLABUS

UNIT I

Health and Infections; Concept of Disease - Common Communicable and Non Communicable infections; Mode of disease transmission - Direct Contact, Droplets, Airborne, Fecal-Oral, Zoonotic and Nosocomial

UNIT II

Phytochemicals – Sources, List of phytochemicals, Importance; Crude Extraction Methods – Hot and Cold Extraction; Bioactive compounds identification and purification (Chromatography methods), Essential Oil Types and Extraction - Hydro distillation, Steam distillation, Scale up and Storage; Role of Phytochemicals in disease control.

UNIT III

Hand Sanitizer – Types (Alcohol Based Sanitizer and Non-Alcohol Based Sanitizer); WHO Guidelines for Sanitizer Preparation; Sanitizer Composition and Formulation; Role of Essential Oil in Sanitizer; Validation – Alcohol Content and Anti-Microbial Studies; Enhancement of Shelf life.

UNIT IV

Soap Products– Types, Formulation, Preparation; Evaluation - Physical Evaluation (Color, Odor and Texture), Appearance and Homogeneity, pH, Hardness; Efficacy Testing: Antimicrobial activity and Toxicityevaluation.

UNIT V

IPR and Entrepreneurship

Practical:

- Phytochemical Extraction and Qualitative Analysis
- Antibacterial Activity by Kirby-Bauer Test
- Determination of MIC and MBC
- Preparation of Hand Sanitizer
- Preparation of Soap

COURSE OUTCOME

- Students may be able to quantify management systems comprehend and able to configure the internal and external units in a company establishment

REPORT

The Guru Nanak Centre for Skill development organized a certificate course on Personal Hygiene and Product Development for Batch I from 22.03.2021 to 30.03.2021 and for Batch II from 10.06.2021 to 15.06.2021. The students were from the department of B.Sc. Biotechnology, B.Sc. Plant Biology and Biotechnology, B.Sc. Advanced Zoology and Biotechnology and B.Sc. Chemistry. The resource persons were Dr. P. Mahalakshmi, Dr. V. Lavanya, Dr. Mahendrakumar, Mr. A. Amala Lourthuraj and Dr. Bharathi Ravikrishnan. “Personal Hygiene and Product Development” is a course initiated to provide knowledge about personal hygiene and enable the students to understand how to develop the products for hygienic purposes. An official announcement about the course was given to the students and the classes conducted for the students in two batches from March 2021 to June 2021. The course content was divided into five units and the course was planned for 30 hours. Practical classes were conducted to give a hands-on training in Phytochemical Extraction and Qualitative Analysis, Antibacterial Activity by Kirby-Bauer Test, Determination of MIC and MBC, Preparation of Hand Sanitizer and finally the Preparation of Soaps. The course objectives were to help the students to know the importance of hygiene and sanitation and to understand the relationship between microorganisms and sanitation. The course also enables the students to gain knowledge about the importance of bioactive substances and to know the properties and formulation of sanitizers. Certificate of Participation was issued to all the students who attended the Final Examination and submitted the Feedback form.

CERTIFICATE COURSES – 2020-21 FOOD TECHNOLOGY

COURSE CODE	2020_GNC_SDC_011
DATE	08.07.2021 to 22.07.2021
DURATION OF THE COURSE	30 Hours
OBJECTIVES OF THE COURSE	The objectives of the course are: • To impart knowledge in Food science and technology • To enable the students to understand the food composition along with its physicochemical, nutritional, microbiological and sensory aspects.

COURSE CONTENT / SYLLABUS

Unit-I: Food and Nutrients

Definition of the term Food as its function, Basics of energy metabolism, nutrition & dietetics - Unit of measuring energy, Calorific value of food, BMR & factors affecting it, SDA of food, calculation of energy requirement, balanced diet, Food as a source of macro (Carbohydrate, fat & protein) and micronutrients (Vitamins & Minerals), Nutritional in health & diseases (protein energy malnutrition).

Unit-II: Food Spoilage

Introduction; Types of food spoilage; Sequence of events involved in food spoilage; Signs of spoilage; Effects of spoilage; Classification of food based on ease of spoilage; Causes of food spoilage; Spoilage of different types of food – *fish & meat, milk & dairy products, fruits & vegetables, bakery products*; cereals

Unit-III: Microbes in Food preparation

Microbes involved in everyday food production. Application of microbes in dairy, bakery, beverages products, Probiotics, Functional properties of microbes used in food products

Unit-IV: Food preservation and Quality control

Methods of Food Preservation - Physical, Chemical, Biological, Newer methods for controlling spoilage of food, Predictive modeling for food spoilage, Modified and suitable environment for storage of food, Permissible limits of both biological and non-biological contaminants.

Unit-V: Food GMP & Food packaging

Food GMP development time line, Rules of food Validation and Verification, Global and Indian GMP standards. GMP for production and process control, Industry based case studies. Food packet norms, Packing material, Food label, Food codes as per Indian Standard.

Practical:

- Identification and Estimation of biomolecules in food.
- Identifications of food adulterants.
- Isolation and identification of Probiotics (Bacteria- Lactobacillus spp) from curd.
- Methods of food preservation.
- Methylene blue test to detect the microbes in milk & Detection of urea in milk.

COURSE OUTCOME

- The students will gain knowledge in international food laws and regulations as well as the importance of food engineering and packaging in the food industry.

REPORT

“Amazon Web Services” is a course initiated to provide information about design systems that are secure, reliable, high-performing and cost efficient. An official announcement about the course was given to the students and the classes began from 15th March 2021 and went for about a month till 13th April 2021. The course content was divided into fifteen modules and the course was planned for 30 hours. Eminent resource persons such as Kamatchi Devi D, Ravichandran A, Mousumi Bailung and Mayur Bhushan Kotoky were handling the classes for the UG students of BCA, B.Sc Computer Science, B.Sc Information Technology and B.Com Information System Management. The course objectives were to familiarize the students with general networking concepts and cloud computing concepts. The course also aimed to equip the students with a working knowledge of disturbed systems and multi-tier architectures. 403 students were benefited by the course and they were all given a certificate to acknowledge their skill development under the banner of Guru Nanak Centre for Skill Development.
